## The Personal Development Curriculum Summer 1

As a part of your child's education at West Kirby Grammar School, we promote personal wellbeing and development through a comprehensive Personal, Social, Health and Economic (PSHE) education programme within their Personal Development lessons.

Teaching Relationships and Sex Education (RSE) and Health Education is our legal duty, and the government provides guidance which we must comply with.

Personal Development is the curriculum subject that gives young people the knowledge, understanding, attitudes and practical skills to live safe, healthy, productive lives and meet their full potential.

**The table opposite summarises the key learning for this half term.**

All Personal Development teaching takes place in a safe learning environment and is underpinned by our school ethos and values. We work together to raise awareness and respect all viewpoints.

As a school, we are committed to working in partnership with parents. If you would like to find out more or discuss any concerns, please do not hesitate to contact Mrs Kimber on [kkimber@wkgs.net](mailto:kkimber@wkgs.net).

You are also more than welcome to contribute to our Personal Development curriculum by sharing some topics or discussion points that you feel should be covered.

**Y7** Learning Skills

## 'A spotlight on' - Reflecting on National Careers Week and Looking Ahead

Last half term, we celebrated National Careers Week (NCW) with a series of exciting and informative activities. Students explored the career histories of our staff, participated in virtual career fairs during form time, and engaged in lessons that focused on subject-specific career paths throughout the week. In Personal Development, students looked ahead to the impact of AI, explored the importance of Labour Market Information (LMIs), and discussed emerging environmental careers.

We encourage you to continue the learning at home by discussing the fascinating insights and opportunities that were covered this week. A valuable resource to support these conversations is The Parents' Guide to Careers, created in partnership with National Careers Week. This guide provides parents with useful information about vocational options after GCSE and sixth form, helping to navigate potential career pathways.

National Careers Week (NCW) 2025 offers parents a unique opportunity to explore different career paths available to teens. The guide is a great tool for understanding what options best suit your child and where each path could lead. For a detailed look at the events from this week, including day-by-day activities, please visit:

[The Parents' Guide to Careers](#)

Thank you for supporting your child's career exploration and development!

If you are looking for support discussing careers and further education options at home, the links below provide useful tips and information:

[Careers Advice for Parents | Youth Employment UK](#)

[Careers Advice For Young People | WorldSkills UK](#)

[Parents Advice for Career Conversations - Talking Futures](#)

Creating Careers Pathways is designed to give parents and carers the information they need to help their young person find their best next step. Each session looks at pathways into careers in some of the Liverpool City Region's largest sectors and allows audiences to ask employers questions.

Each episode comes with a downloadable information sheet containing key links to further advice and guidance.

View each episodes here:

## Celebrating the Success of WKGS Futures: Career Talks Initiative

We are thrilled to celebrate the continued success of WKGS Futures, our school initiative where students hear directly from former students, parents, and local community members about their diverse career experiences. These talks cover a wide range of professional backgrounds, providing valuable insights into various industries.

Last half term, we welcomed our second Forensic Psychologist, who shared the fascinating range of professionals she collaborates with. We also explored the world of entrepreneurship, launching a new club designed to foster growth in this exciting area. Additionally, we delved into the field of Law, discussing the many pathways to success within this profession.

We encourage you to discuss the value of this programme at home and motivate your child to get involved. All students are expected to attend at least two talks during the academic year, with the opportunity to sign up in advance.

If you or someone you know would be interested in delivering a career talk, we would love to hear from you! Please email Mrs. Kimber at [kkimber@wkgs.net](mailto:kkimber@wkgs.net).

Your support in making this initiative a success is greatly appreciated.

**This half term, some of our guest speakers will be discussing:**

- Working in Education
- Police and Army careers
- Working as a community Vet
- Paediatric medicine
- Women in Sport

# WKGS Debates

Last half term students voted on their debate topics and the results are in!

## Year 7 Topics

Peer pressure is mostly negative and harmful/ The age where it is legal to send, have or distribute a sexual photo, including selfies should be reduced to 16 from age 18

## Year 8 Topics

The stigma around mental health is no longer an issue/ Children and teenagers are less resilient now than 20 years ago

## Year 9 Topics

Legalising all drugs would make us safer/ We should punish parents for the crimes committed by their children

# Enrichment

## Co-Curricular Programme Highlights

Our co-curricular program continues to thrive, with many exciting initiatives and activities taking place across the school. Some of the standout moments this term include:

- The Eco Council's fantastic work on building a bug hotel, promoting sustainability and biodiversity.
- An engaging and thought-provoking House Debate by our Year 8 students, showcasing their public speaking and critical thinking skills.
- Our Judo class is progressing through their log books and assessments, demonstrating both discipline and determination.
- The launch of DofE (Duke of Edinburgh Award) with Year 9, offering students a rewarding challenge in outdoor adventure, community service and personal development.

Some of the most popular and well-attended clubs this term include Netball, Football, Dance and Crochet Club, with students enthusiastically participating in these activities. New clubs include more arts and crafts opportunities, yoga and mindfulness and a relaunch of the school magazine!

As a reminder, our expectation is for students in Years 7 to 9 to attend at least two clubs per week, while those in Years 10 and 11 are expected to attend one. Registers will be taken to track participation, and meetings were held for students who are not meeting these expectations. Emails will continue to be sent home to ask for your support in encouraging participation.

We encourage all students to embrace these opportunities to develop new skills, build friendships, and enrich their school experience.
