- |  |  |   |  |  |
|--|--|---|--|--|
|  |  | <ul style="list-style-type: none"><li>• Using data and observations to determine the pH of a solution and explain what this shows.</li><li>• Defining acids and alkalis in terms of neutralisation reactions.</li><li>• Explaining how neutralisation reactions are used in a range of situations. Describe a method for how to make a neutral solution from an acid and alkali</li><li>• Reactions of acids with alkalis to produce a salt plus water</li><li>• Reactions of acids with metals to produce a salt plus hydrogen</li></ul> |  |  |
|--|--|---|--|--|

<b>Particles</b>	<i>Spring - Summer</i>	<ul style="list-style-type: none"><li>Analyse patterns</li><li>Review theories</li><li>Discuss limitations</li><li>Test hypotheses</li><li>Draw conclusions</li><li>Construct explanations</li><li>Collect data</li><li>Present data</li></ul>	<ul style="list-style-type: none"><li>The properties of the different states of matter (solid, liquid and gas) in terms of the particle model, including gas pressure.</li><li>Changes of state in terms of the particle model.</li><li>Changes with temperature in motion and spacing of particles.</li><li>The differences in arrangements, in motion and in closeness of particles explaining changes of state, shape and density, the anomaly of ice-water transition.</li><li>Atoms and molecules as particles.</li><li>Diffusion in terms of the particle model</li></ul>	<b>Prior Knowledge from KS2</b>  Students should be able to:  Compare and group materials together, according to whether they are solids, liquids or gases  Observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)  Identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature	<ul style="list-style-type: none"><li>Y8 Autumn: Elements, mixtures and compounds</li></ul> Links to GCSE Topic 1 – <b>Atomic Structure and the Periodic Table</b>  <b>Year 9:</b> <ul style="list-style-type: none"><li>Mixtures</li><li>Development of the atomic model</li></ul> Links to GCSE Topic 2 – <b>Structure and Bonding</b>  <b>Year 9:</b> <ul style="list-style-type: none"><li>The three states of matter</li><li>State symbols</li></ul>
