

## Online services

Information regarding online payments and parent/carers login details for the parent portal will be given to students in September.

Students will also set up their cashless lunch accounts for the dining room on their first day in September.

**If your child/ward would like to buy their lunch from the dining room on the first day, they can do so by bringing in cash.** Once their account has been set up parents/carers will be able to top up and monitor their child/ward's lunch account online.
