Teacher of Maths

Full-time, permanent. Required for January 2024

The Governors of this exceptional Grammar School wish to appoint a well-qualified and enthusiastic teacher of Maths for January 2024. The post is full-time. The ability to teach GCSE Maths is essential and A-Level Maths is desirable. A strong degree in Maths is sought, although candidates with a degree in a closely related discipline are welcome to apply. This post would suit a newly or recently qualified teacher, for whom extensive support and encouragement will be given, or a more experienced practitioner.

The Maths Department at WKGS is a vibrant, exciting place to work and a place for all students to develop their Maths skills in order to achieve their best in this subject. They work in a suite of rooms and are a hard-working team who offer drop-in support sessions and a range of extracurricular opportunities at lunchtimes in the Maths Department, where staff encourage students to explore their love of Maths and consolidate their learning further and improve their confidence. The department promotes thinking skills and confidence in the subject and, as a result, the popularity of A-level Maths and Further Maths has grown significantly. At GCSE level, results are excellent with 45% of all grades being at grades 9-7 and 72% of all grades being at grades 9-6. A significant percentage of the cohort also successfully complete the Further Mathematics GCSE.

Students follow a two-year KS4 at WKGS and all students aspire to being entered for the Higher Tier for Edexcel Maths. At Key Stage 5, the Edexcel courses in Maths and Further Maths are followed and classes are usually shared between two teachers, with topics allocated according to areas of specialism.

At Key Stage 3, a Maths Mastery program is followed using a variety of practical and visual resources and there is a real commitment in the department to improving the mastery of the rules of Maths in order to promote confidence and resilience in the subject. This fundamental approach to teaching in Maths at Key Stage 3 is then built upon throughout Key Stage 4 and 5 studies.

As a school, we believe there are no limits on a student's potential: with the right approach to learning every student can reach levels of attainment and achievement that might previously have been considered the preserve of a 'gifted and talented' few.

Our values are inspired by our school motto: *ad metam contendo* - strive towards the goal.

These six core values aren't simply words on a page – we live and breathe them every day, driven by our determination to inspire and support every child in the pursuit of their goals, whatever they may be:

Community

- We choose to be collaborative, caring and kind, showing empathy and honesty in our actions.

- Our extensive curriculum ensures that every student has the opportunity to discover their talents.
- We encourage everyone to embrace our extra-curricular provision and wide range of enrichment activities; we promote leadership at all levels.

Innovation

- We strive to create the leaders of tomorrow; individuals who are daring and forward thinking and who work to inspire those around them.
- Creativity is highly valued, and we aim to find inventive and enterprising solutions to the challenges we face.
- Change is embraced as we develop inventive new practices and systems.

Curiosity

- We encourage all members of our community to display a love of learning and to show an inquisitive approach to challenge.
- The ability to reflect on practices is key, along with a passion to improve. Asking questions to deepen understanding and looking beyond the confines of the curriculum is actively encouraged.

Endeavour

- We work with motivation and resilience, whatever the challenge ahead.
- Determined to succeed, we challenge ourselves and those around us to improve
- We engage with our tasks and work with perseverance to achieve.
